

World Youth Day 2008, Sydney, Australia Accommodation

Cairns Colonial Club Resort

The Cairns Colonial Club Resort is ideally set on four hectares (10.5 acres) of award-winning gardens, beautifully complemented by three lagoon-style swimming pools, each creating a perfect tropical environment. The relaxed feel of the resort is highlighted by the very personable staff and exceptional facilities, including three unique restaurants that provide interesting and exciting dining experiences. Four bars, including a swim-up bar, a fitness centre, sauna and spas, a tennis court, Internet café and bicycle hire ensure a complete holiday experience for everyone. Please note this resort is built to blend into the tropical landscape; it has only two floors and there are no elevators. The resort has a courtesy shuttle service to and from the Cairns City Centre every hour throughout the day.

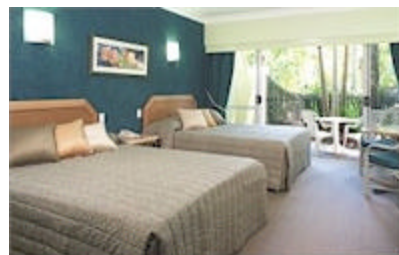

The resort offers a range of accommodation, all tastefully decorated. We have booked standard rooms with one double bed and one single bed and private bathroom (shower only). Also used will be studio rooms with four single beds and limited kitchenette facilities; if your group had four-to-a-room in Sydney, you may wish to utilize this bed configuration. If you wish to provide an upgraded room for clergy or group coordinators, there are superior rooms available that are larger and have two queen beds and private balconies. There will be an additional cost for these rooms, subject to availability on confirmation.
